**Subject:** West Coast OAH Science Panel- Summary of Oregon agency input to date  
**Attachments:** Oregon agency responses - OAH Panel science info needs.pdf

Greetings All!

We really appreciate your informed responses to our request last fall for input regarding ocean acidification and hypoxia science information needs for the West Coast Ocean Acidification and Hypoxia Science Panel.

Attached please find a brief summary of Oregon agency responses and recent Panel activities. Input received thus far gives the Panel a good overview of Oregon agency concerns and questions. Your input, along with that from other west coast agencies, will help significantly to frame the content and format of Panel products.

The Panel was set up to be interactive and thus is open to additional input. The OSU Institute for Natural Resources (INR) and California Ocean Science Trust (CalOST) will be expanding our efforts to solicit input in coming weeks.

Thank you for your interest and participation in the Panel's work. Please let me know if you have further questions or suggestions for the Panel.

Regards,

*Jeff*
